

APPLICATION FOR TEMPORARY A901 LICENSE TO ASSIST WITH HURRICANE SANDY CLEANUP

In response to Hurricane Sandy and its aftermath, Governor Christie issued Executive Order 104 which declared a State of Emergency. The volume of solid and hazardous waste generated by Hurricane Sandy exceeds the capacity of the State's A901 licensed solid waste transportation and disposal industry. N.J.S.A. 13:1E-135(a)(2) authorizes the Department to issue a temporary A901 license authorizing an entity to broker, collect, transport or dispose of solid waste, if the Department determines that issuance is necessitated by the public interest. For the foregoing reason, the Department created a process for companies to apply for Temporary A901 licenses.
